

For Life

No eye for an eye
No tooth for a tooth
No sickness, all health
Happiness for you, the best of wealth

Little feet go pitter patter
Life's a worry, but no matter
Take it all in your stride
Taken your love as your bride
Look around you, see such pride

Married for love never a bind
Bride to keep, groom will mind
Good days some bad, shed a tear
Keep safe, be happy, and know no fear

No trouble and strife
True husband and wife
Man of the moment, groom to be
Always be first, for this bride you see

Married for life, in love be kind
Share your time, children to find
Not just a house, make it a home
Keep it warm, when in we roam

True love, knows no bound
For this young couple, now we found
Keep your feet, both on the ground
Keep the faith, our God around

For Life
