

## **Oh Cold Oh Flu**

Is it a cold?  
Is it the flu?  
Sneeze a tissue  
Bless you

Oh now what to do  
A new Asian flu  
New bug says it's a TSAR  
It's Chinese must be SARS

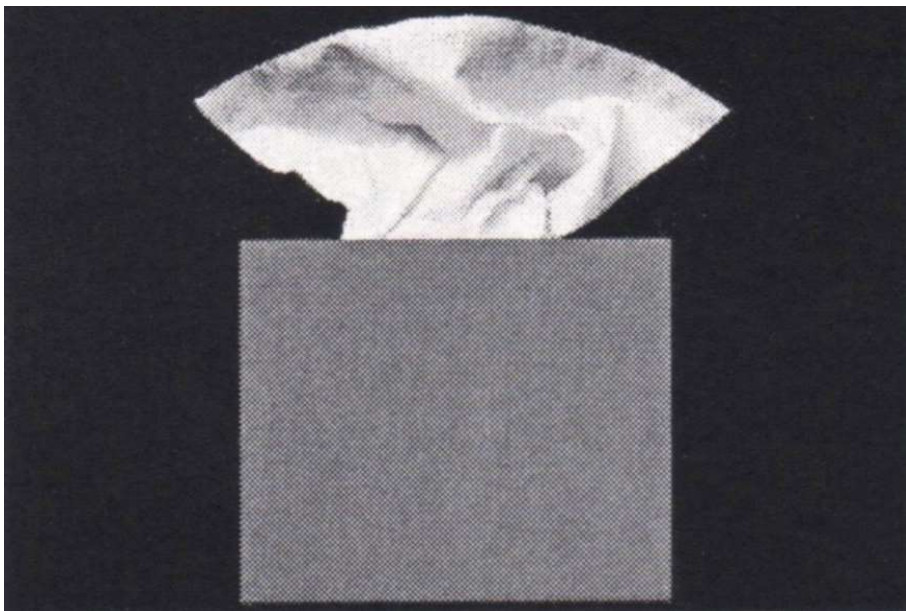

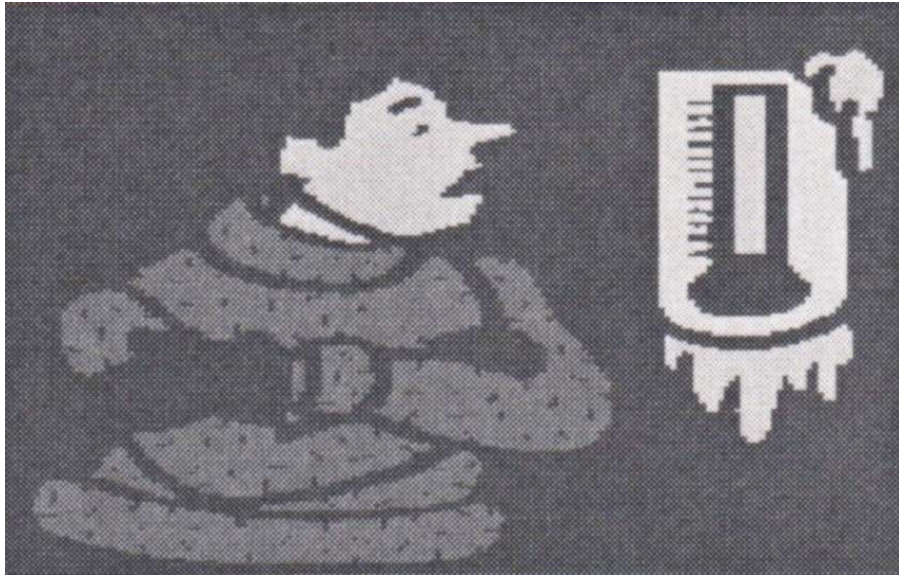

A frog in my throat  
So on goes the winter coat  
Sniffles and sneezes all in a pew  
Waiting for the verdict, why must we queue?

It's all in the head  
Just take to your bed  
It's now on my chest  
Just gargle and rest

It's a virus, a new strain  
Take these to ease the pain  
Forgot your flu jab  
Sent special from the lab

No future so bright  
No cure in sight  
Misery at night  
Still tired at daylight

It's all down to you  
Oh Cold  
Oh Flu

*Oh Cold Oh Flu*
