

The Sun

The sun shines bright today
For all who like it, hip-hip, hooray
 Wow to feel its lovely rays
For many an hour, I hope it stays

When I feel it on my face
Yes it takes me to a different place
 It lifts my mood
When times I brood

Its warmth, its glow
Makes me bounce as I go
 In the park, we're all out
Fither playing, or lazing about

No aching in any bone
Looking better, skin in tone
 Build it up, to a nice tan
Now the sun's favourite fan

It makes me feel so good
 I wish I always could
See the children dance and play
Love the sunshine, day by day

See great farmers, making hay
Help to feed us, helps their pay
 All the colours, growing fonder
Shining bright, a golden wonder

It makes me feel so good
Make the best, I always should
 Make it last, make it stay
When it's past, another day

Alls so better, when the sun shines brightly
It makes me feel a bit more sprightly
The sky is clear, no clouds, it's blue
 It's even better, with nothing to do
Not only for me, a must for you

Time to care
Time to share
Making love, you can dare

In nature's bed, the open air

The trees are strong, how green they look
With birds in song, and crowing rook
The school is out, no work to do
A holiday now, for me and you

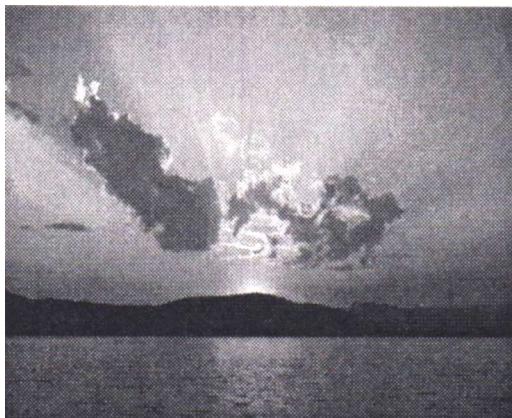

The job is done
Next to come
Have some fun
In the sun

Dawn
