

Your So Very Special Just You

I can see clearly now my tears have gone
I can look my love straight in the eye
I am me again, now it's all done
Keep my friends, no sad good bye

I found love,
I know no pain
Can you ever return the same
Make it just, make no gain
Don't make it all, be so vain

I am here, willing and able
Be together through good and bad
Make it for real, not just a fable
Make life for living, no to be sad

Your special so very special
Such a wonder to me so dear
Not just in make-up an Artist of Facial
All the time wanting you near

Knowing such love, not just a name
So kind and beautiful, that's really you
For fun for living, not for a game
Your so wonderful, try love me, do

Find the space, find the time
Find the feeling, find me do
Find the grace, come be mine
Live your dreams, love for two
Your so very special, just you
